

Brochure

Technical University of Varna

The Technical University of Varna was founded in 1962. The purpose of its establishment was to ensure conditions for education of engineering staff for the shipbuilding, transport, machine building, electric power engineering and communications.

Over the years the Technical University Varna grew from a small institute, training engineers to satisfy the regional needs to a large University of national significance, educating students in 21 specialties. During its 40 years of existence, the Technical University of Varna has trained tens of thousands people specialists with higher education in the fields of „Technical Sciences”, „Natural Sciences, Mathematics and Informatics”, „Social, Economic and Legal Sciences” and „Pedagogic Sciences in Engineering and Technologies”. Technical University Varna is a member of the European University Association and it is the first Bulgarian University Accredited by it. This University is also local contact centre of the European Researchers Mobility Network EURAXESS.

EDUCATIONAL CONSULTANTS

Undergraduate Programs

Following courses are available in Technical University Varna:

- Manufacturing Engineering and Technologies
- Electronics
- Computer based Control and Information Systems
- Robotics and Mechatronics
- Communication Engineering and Technologies
- Computing
- Software and Internet Technologies
- Navigation
- Naval architecture and marine technology
- Industrial management
- Technological Entrepreneurship and Innovations
- Social management

Postgraduate Programs

All available courses are listed below:

- Automation, Information and Control Technologies - SIEMENS PLC Control Technologies
- Automation, Information and Control Technologies
- Internal Combustion Engines and Automotive Engineering
- Electronics
- Electronic Systems for New Energy Sources
- Electronic Power Engineering
- Electronic Power Engineering and Equipment
- Fleet and Port Operation. Term of study: 1 year / 2 semesters
- Electronic Power Supply and Electrical Equipment in Industry

- 
- Electrical engineering
 - Electrical engineering (RENEWABLE ENERGY SOURCES)
 - Mechanical Engineering and Device construction
 - Industrial Design
 - Industrial management
 - Naval Architecture and Marine Technology
 - Computing (Computer Engineering)
 - Computing (Computer Networks and Communications)
 - Computing (Computer Technologies in Business)
 - Computing (Microsoft Information Technologies)
 - Computing (Programming Systems and Technologies)
 - Computing (Software Engineering)
 - Communication Engineering and Technologies
 - Manufacturing Engineering and Technologies
 - Social Management
 - Thermal Engineering
 - Transport Engineering and Technologies
 - Transport Engineering and Technologies
 - Transport Engineering and Technologies

Specialization "Internal Combustion Engines and Automobiles"

PhD Programs

Variety of PhD programs are available in TU Varna, accredited by the National Agency for Accreditation and Control. For further information please contact Lagos International.

Why Bulgaria

Bulgaria is situated in south-eastern Europe and spreads over truly breath-taking landscape. The scenery ranges from mountainous peaks covered in snow to spectacular valleys and lowlands giving way to the coast of the Black Sea. Situated at the crossroads of the East and West, Bulgarian land has been home to many ancient civilizations like Thracians, Greeks and Romans.

Bulgaria is a member of the European Union and is a popular tourist destination, millions of people visit it each year. Land with a history that stretches over thousands of years, dynamic modern lifestyle and mysterious culture, the country has just as much to offer as all other European countries.

Our aim is to select outstanding Universities in the best cities of Bulgaria, so your educational journey becomes astonishing life experience as well. Our excellent professional service and tight connections with this University will guarantee that we'll be looking after you every step of the way.

Don't miss out the opportunity to become part of the European students family – contact us today.
